The Nuclear Nonproliferation Treaty (NPT) is in danger of disintegration unless the nuclear weapon states take steps towards nuclear disarmament. We will discuss one such step that may have a chance of success – removal of US nuclear weapons from European territory. The following appeal will be discussed and refined:

## **APPEAL TO EUROPEAN AND WORLD LEADERS TO ELIMINATE THE NUCLEAR WEAPONS THREAT**

The threat of nuclear annihilation, by accident or design, remains the gravest threat to civilization confronting Europe and the World. The 480 US nuclear weapons based in Europe contribute to this threat.

For the safety and security of the peoples of Europe and the World, we appeal:

To the leaders of the non-nuclear European governments, to move towards the elimination of the threat of nuclear weapons in Europe and the World by calling upon the United States to remove all its nuclear weapons from European soil and from the adjoining waters and to have these weapons returned to the US for dismantlement;

To the leaders of NATO countries, including the three NATO nuclear weapons states – the US, UK and France – to abandon the NATO policy of first use of nuclear weapons and replace it with a clear and legally binding “No First Use” policy;

To the leaders of all nuclear weapons states, declared and de facto, to initiate negotiations on the universal elimination of all nuclear and other weapons of mass destruction.
